Summary

Construction Management Engineering Technology (BS) student with hands-on experience in construction, field operations, and site coordination. Skilled in AutoCAD, soil sampling, safety compliance, and project documentation. Seeking a construction internship to contribute to a career as a superintendent or project manager.

Education

Farmingdale State College - BS in Construction Management Engineering Technology | GPA 3.81

Anticipated Spring 2028

- Coursework in construction methods, scheduling, cost estimating, materials, structural systems and safety
- Emphasis on practical, real-world application and coordination between field and office operations
- Experience with project documentation, plans, and basic construction coordination concepts

Experience

Subsurface Engineering — Intern

March 2026 – Present

- Use AutoCAD to develop and edit site plans, subsurface profiles, and construction-related drawings
- Prepare Geotechnical Engineering Reports (GERs) with documentation, data, and field notes
- Assist with field work including soil sampling, test borings, and site inspections to create GERs
- Observe and report site conditions that impact safety, design, and feasibility
- Coordinate with engineers and field crews to ensure data collection and adherence to project plans
- Maintain organized project documentation including logs, reports, and field records

Golden Touch Sandblasting — Assistant Sandblaster and Administrative Assistant

Sept 2023 – Present

- Assist with surface preparation and sandblasting, including equipment setup and material staging
- Adhere to strict safety procedures and proper PPE usage guidelines in hazardous environments
- Coordinate with supervisor on site layout, task sequencing, and daily job progress to meet project timelines
- Support site organization, cleanup, and closeout activities to maintain safe and efficient work areas
- Handle billing, invoices, and client communication

Town of Hempstead — Lifeguard

Jun 2023 – Aug 2023

- Monitored aquatic environments and enforced safety protocols to prevent accidents
- Responded quickly to emergencies, demonstrating strong decision-making and situational awareness
- Coordinated with team members to ensure effective coverage and smooth operation of facility

Volunteer Experience

New Paltz Rescue Squad — Volunteer

Nov 2024 – May 2025

- Applied risk management, emergency response skills, and effective communication in high stress situations
- Assisted in emergency response operations, including on-scene coordination and patient care
- Strengthened teamwork, and crisis-management abilities

Extracurricular Activities

- President of American Institute of Architecture Students (AIAS) Club
- Co-Vice President of the Architecture & Construction Technology (ACT) Club
- Active Member and Volunteer of the Construction Management Association of America (CMAA)
- Active Member of the Trade Organization (CREDA) Commercial Real Estate Development Association

Certifications

- CPR Certified
- Emergency Vehicle Operator Certified (EVOC)
- NCSF Certified Personal Trainer
